Anniversary pipette trade in program

Over 50 years history of liquid handling started with the development of the first piston-stroke pipette. In the following years Eppendorf has successfully pioneered breakthrough technologies. So don't miss the golden opportunity in our anniversary year to upgrade your laboratory to the highest standard in pipetting, at a very favorable price. Whatever model you are willing to trade in. Choose from our pipette range.

Eppendorf Reference®

Eppendorf Reference's great success is based on its unique design and technology concept: the utmost precision and accuracy combined with low failure rate and high longevity. The ergonomic features also play a big role, making work more comfortable and safe for every user.

Eppendorf Multipipette® family

The Eppendorf Multipipette range of electronic and manual hand dispensers is ideal for process acceleration and saving time on long-series pipetting. The increased volume selection provides outstanding flexibility and exceptional support for research and routine tasks, and smooth handling reduces the fatigue associated with repetitive work.
